

Psychic Horizons CHURCH of NATURAL GRACE

October 2010

Dear Step 3 Grads:

This is an annual update we send out to all Step 3 Grads.

I know now that when I began teaching classes in my apartment and then decided to incorporate as a church/school, I didn't know what I was getting into. At the time, it seemed that since teaching classes in my house was really fun, then continuing that process as a formal school would also be a very fun way to explore psychic meditation and healing. Besides, then I could act like a Real Teacher.

I had no clue what being a real school meant, much less a business that I would have to pay attention to. I also conveniently forgot that whatever pictures I had/have in my space always show up somewhere along the line. Look around the school, and there they are.

There are many inherent problems that come with a school/business, but also all of the joys that come with teaching others to be their own healers. I've had to learn a lot about risk, about a very unusual business, about people who love what you teach and people whose expectations aren't met, about how to manifest financially in the physical plane with a spiritually based institution. Mostly it's been a lesson in neutrality and compassion.

Psychic Horizons/Church of Natural Grace will be 30 years old on February 17, 2011.

● PH Situation

During this time of economic stress, we've really focused on cleaning out our pictures about how it could affect us, keeping our energy level up and our mockups out there. We've been doing ok! The number of clairvoyant training students has been going up. We have some very interesting and very capable students coming in.

We love teaching the students we have, and, as always, we would love to increase the number of students attending. Please help us by talking to friends, neighbors and relatives so more of them keep coming into classes. Another session begins Oct 31. You are our best advertising!

Monday night healing clinics have been hopping and oftentimes the readings are full. We have more apprentices and teachers-in-training. We could not ask for better staff. We laugh a lot.

Rev. Bruce van Horn has not been teaching for a few years due to his work change from computer networking to being a chef (he's teaching a graduate class this session on "Taking Risks", very appropriate). But he's back more and more, for which we're very glad. Rev. Lawrence Nallan had been away for about 5 years, but now he's back also -- we just can't keep them away!

Rev. Tatijana Goreta, our administrator for the past several years, is moving to Chicago to be with family. We are very sorry to see her go! -- and wish nothing but the best for her. Tatijana has been a wonderful person to have here keeping things going on a day to day basis, and those of you who have spoken with her know about her warm and open personality.

Rev. Yolanda Simmons, a 2008 clairvoyant training grad, will be the new administrator as of November 1. Please welcome her with open arms!

- **Web Site and Events**

Don't forget to check out the web site when you want information about upcoming classes or events. Please think of any business or social group you know that we could call for a topic of interest to them. We can tailor a free intro or presentation for just about any group, and we're happy to do it.

- **Church**

I would suggest coming to church! More and more people are participating, and it's a wonderful group, great information, and a way to build community. Please join us! 2nd Sunday of every month, 6:30 pm. Next ones are November 14 and December 12.

- **Fundraising - Annual dinner**

Our annual fund raising crab dinner this year will be the third or fourth Saturday of February, 2011. This will be a special event as it will our 30th anniversary! Please put this on your calendar and plan to attend. The dinner is a very important fund raising event for us, plus it's very fun with such good food and fellowship. Everyone is welcome. We will be sending out details later.

- **Tithing - Giving**

We are very grateful to those of you who tithe regularly or irregularly. It really helps us!

If you're not tithing, we are a very worthy non-profit organization! Please consider tithing, as we could use your support. There is a tithing section on the web site and you can use that to donate, or send in your checks or call with your credit card. We are happy to accept whatever amount you can afford. These days, especially with all of the economic uncertainty, it is crucial that we are able to continue to maintain a certain level of income. Tithing is a major source of our income. We very much appreciate it.

All tithes are tax deductible.

- **Email**

If you are not receiving email communications from us, it means we don't have your email. Email us with your email! We will be doing more and more that way, less and less on paper. Email is cheaper and faster and more environmentally friendly. Also please keep us updated as to changes in phone numbers and address.
