Happy Birthday to Me

Birthdays are the day we came into being on this planet. What did you bring with you and what pictures are you operating out of as you celebrate another year of life? In this workshop we look at the energy of birthdays. Every year they mark another year on the planet and they evolve just as we do. Perhaps it's time to give your birthday a healing and clean out expectations, disappointments, needs, wants, and any past or future time energy.

Rev. Tom Connelly

Tuesday • Aug 31 • 7:30 - 9:30 pm

7-Week Course • \$280/250

What You Resist You Become

Look back on your own life and notice how many people or things you resisted. But then be amazed at how you became like those people, or did those things! Resistance is like a magnet, pulling you towards whatever it is you are resisting – as in like attracts like. As long as you have resistance, you do not really have choice. In this class you will look at how to let go of various resistances, even long term ones, and to be more free to make choices.

Many workshops, courses, services and readings are available by phone.

Releasing Limitations on Joy

How much Joy do you allow yourself to experience? Is there a limit to what you can have? In this workshop we will look at religious, cultural and family programming regarding Joy and Permission to Have. We will clean-out fear around change and do de-programming reading exchanges.

What Happens When You Risk It All? Moving out of your Comfort Zones

You don't have to risk it all to take this class, but you do have to wonder what stops you from making the big changes in life. Been working on a relationship? Changing career? Something else? We'll look at the deeper blocks that keep us from taking a step into uncharted territory and use deeper healing techniques to create change.
